🐙 Github

Summary

Web Developer with hands-on experience in building responsive and user-friendly web applications using React, Angular, and jQuery. Skilled in creating clean interfaces and improving usability across devices. Passionate about learning new web technologies and contributing to meaningful projects in fast-paced development environments.

Skills

- **Frontend:** React.js, Angular, Redux, JavaScript (ES6+), jQuery, HTML5, CSS3, Bootstrap,
- **Programming Languages:** Java
- **Database:** MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code

Experience

MERN Stack Intern — EY Global Delivery Services (EY GDS)

Feb 2025 – Mar 2025

Remote

- Worked with the **MERN stack** (MongoDB, Express.js, React.js, Node.js) to develop end-to-end web applications.
- Designed and implemented responsive user interfaces and integrated them with backend services.
- Developed and consumed RESTful APIs to enable seamless data flow between frontend and backend.
- Contributed to code optimization, debugging, and performance improvements in collaborative team environments.

Projects

Personal Finance Manager (MERN Stack) 🐙 Github

- Developed a responsive web application to track and manage user income and expenses efficiently.
- Implemented transaction categorization and interactive charts to visualize financial trends and spending patterns.
- Integrated frontend and backend components to ensure smooth data flow, performance, and usability.

Royal Estate (React Router + Bootstrap + JavaScript + HTML + CSS) 🐙 Github

- Developed a responsive real estate web application that allows users to search properties and browse listings efficiently.
- Implemented client-side routing using React Router to enable smooth navigation across application pages.
- Designed a modern, mobile-friendly user interface using Bootstrap to enhance usability and user experience.

Bitcoin Tracker (React (Props) + Bootstrap + JavaScript + HTML5 + CSS3) 🐙 Github

- Developed a responsive web application to display real-time Bitcoin price updates and basic market information.
- Utilized React props for efficient data passing and component-based architecture.
- Designed a clean, mobile-friendly user interface using Bootstrap to ensure consistent layout and usability.

Certifications

- EYGDS AICTE Internship Completion Certificate
- Python for Data Science (NPTEL) – Successfully completed a 4-week online certification course offered by IIT Madras.

Education

Bachelor of Engineering in Computer Engineering

Expected 2026

Trinity College of Engineering and Research, Pune

CGPA: 7.1

Higher Secondary Education (HSC)

2021 – 2022

Chate Jr. College of Science, Shahupuri, Kolhapur

Percentage: 69.83%

Secondary Education (SSC)

2019 – 2020

M. G. V. Rukadi, Kolhapur

Percentage: 74.60%
