Summary

Full Stack Developer with hands-on experience in building responsive web applications using React.js, JavaScript, Servlets, JDBC, and MySQL. Skilled in frontend development, backend integration, REST APIs, and database management with a strong focus on clean, user-friendly, and efficient applications.

Skills

- **Languages:** Java, JavaScript (ES6+)
- **Frontend Development:** React.js, Redux, jQuery, HTML5, CSS3, Bootstrap
- **Java Backend Technologies:** Servlets, JDBC, Hibernate (ORM), Spring MVC, Spring Boot
- **Database Management:** MySQL
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, MySQL Workbench
- **Core Concepts:** Object-Oriented Programming (OOP), MVC Architecture

Experience

MERN Stack Intern — EY Global Delivery Services (EY GDS)

Feb 2025 – Mar 2025

Remote

- Developed full-stack web applications using the MERN stack, improving application responsiveness and scalability.
- Designed and implemented responsive user interfaces, enhancing user experience across multiple devices.
- Built and integrated RESTful APIs to enable efficient data communication between application layers.
- Optimized application performance by debugging issues and improving code efficiency in a collaborative environment.

Projects

EliteCars (Servlet, JDBC, MySQL, HTML, CSS, Bootstrap) 🐙 GitHub

- Developed a car rental web application that allows users to browse, book, and manage rental cars efficiently.
- Implemented backend functionalities using Java Servlets and JDBC for user authentication, booking management, and database connectivity.
- Designed a responsive and user-friendly interface using HTML, CSS, and Bootstrap to enhance user experience across devices.

Royal Estate (React, Bootstrap, JavaScript, HTML, CSS) 🐙 GitHub

- Built a responsive real estate web application enabling users to search and browse property listings efficiently.
- Applied client-side routing using React Router to enable smooth navigation across application pages.
- Crafted a modern, mobile-friendly user interface using Bootstrap to enhance usability and user experience.

Bitcoin Tracker (React, Bootstrap, JavaScript, HTML5, CSS3) 🐙 GitHub

- Built a responsive web application to display real-time Bitcoin price updates and market information.
- Leveraged React props for efficient data passing and component-based architecture.
- Designed a clean, mobile-friendly interface using Bootstrap to maintain consistent layout and usability.

Certifications

- EYGDS AICTE Internship Completion Certificate
- Java Full Stack Development
- Python for Data Science (NPTEL) – Successfully completed a 4-week online certification course offered by IIT Madras.

Education

Bachelor of Engineering in Computer Engineering

Expected 2026

Trinity College of Engineering and Research, Pune

CGPA: 8.65

Higher Secondary Education (HSC)

2021 – 2022

Chate Jr. College of Science, Shahupuri, Kolhapur

Percentage: 69.83%

Secondary Education (SSC)

2019 – 2020

M. G. V. Rukadi, Kolhapur

Percentage: 74.60%
